The trial of Chief of Detectives A. Lamar Poole on charges of incompetency, insubordination and neglect of duty was halted abruptly almost at its inception Thursday night by the police committee of city council when a demurrer filed by Poole's attorneys was sustained in 'part and his accuser, Chief of Police James L. Beavers asked for and obtained near the council of the council o euser, Chief of Police James L. Benvers, asked for and obtained more time to clarify and amplify his charges.

Adjournment was taken until next Thursday night. In the meantime Chief Beavers said he would augment the charges filed against his chief assistant, asserting that he believed insertion of dates and places of alleged offenses would result in final complete overruling of the defense demurrer.

The adjournment was taken over a service of the dates of the dates over a service of the dates.

motion for continuance of the trial, filed by Poole' sattorneys, who stated in the record they were ready to coninue with the case on that part of the charges not thrown out as a re-sult of the demurrer, which had won for Poole dismissal of one of the six counts in the bill and partial victory in two of the remaining five counts.

In winning the first skirmish, Poole and his attorneys used the same defense which several years ago won for Chief Beavers a reversal by the court of appeals of a police committee order ousting him, attorneys for the chief of detectives having contended successfully in part that the charges were too vague and were unable to withstand challenge in court.

State Again Tops Nation in Movement Between Financiers and Growers, A. B. A. Survey Reveals.

The supremacy of Georgia in agricultural endeavors, during the last four years was demonstrated Thursday when officials of the Georgia Bankers' Association were notified that the state again led the nation in bankerfarmer activities of the United States at large for the second consecutive

Georgia's successful achievement in the annual banker-farmer contest with the other 47 states is responsible for this added distinction. The contest was decided under the scoring system, operated by the agricultural commission of the American Bankers' Association, which accords to every state certain points or credits for each of its accomplishments for the betterment of farm conditions. Georgia scored 1,000 out of 1,000 possible points, with credits to spare in every classification of activity.

The state has been in the front rank of this competition for four years, standing third in 1929, second 1930 and first for the past two years. Due to winning the national championship last year, Georgia is now in the post-graduate class and is therefore ineligible for the national crown, the 1932 award going to North Da-

Heading the list of prominent Georgians whose work has been most note-worthy in promoting the Georgia banker-farmer program is H. Lane Young, of Atlanta, chairman of the agricultural commission of the American Bankers' Association; Walter N. Harrison, of Lavonia, chairman of the agricultural committee of the state bankers' association, and Professor J. Phil Campbell, of Athens, director of extension of the State College of Agri-

culture.

BROKER G. M. SAUNDERS

Final arrangements in a plan whereby G. M. Saunders, former Atdent, ended her life March 15 by lanta and New York stock broker, will escape the chain gang following conviction three years ago of violata high scholastic standing, had been ing the "blue sky" law, are to be permelancholy since his return from a feeted this morning following an order of Judge John D. Humphries Thursday allowing him to make restitution and pay a fine.

Saunders' case has been in the courts for more than three years and was carried to the supreme court. Judge Humphries ruled that since Jerry Tiffany, Saunders' partner, had been allowed to make estitution and pay a fine, Saunders should be given the same privilege. The amount of the restitution will be agreed upon this morning at a conference between William Schley Howard, attorney for the defense, and J. Walter LeCraw, assistant solicitor-

Tiffany has paid a \$2,000 fine and made restitution of \$8,000 with 70 more days in which to make further restitution of \$5,000. Both were given three to five-year sentences and Saunders is still under a \$25,000 bond.

Entrants Are on Their Toes For Big Yo-Yo Tournament ALEXANDER STEPHENS

Yo-yos are spinning and whirling as the day of days approaches—The Constitution's championship yo-yo tournament which will begin at 1 o'clock Saturday at Piedmont park. Youngsters from far and near are anxiously awaiting the moment and their parents are awaiting the out-

Strings have been wound and re-wound, waxed and re-waxed. Every-one now knows the difference between the spinner and the creeper, and is now waiting for the chance to do their stuff in the hottest of compe-

tition.

Head Coach W. A. Alexander, of Georgia Tech, and Howard Neblett, captain of the Georgia Tech football team, will be present to assist in picking the winner. They and C. E. Waters, of the Donald F. Duncan Company, will be the judges.

Thursday's Constitution carried a complete list of prizes to be awarded and rules to be followed. These will be found again in this morning's Constitution. There are no other qualifications necessary to enter.

All any boy or girl in Atlanta under 18 years of age needs to enter the yo-yo tournament is a genuine Duncan Gold Seal yo-yo, the kind that spins at the end of the string. This is the official tournament yo-yo and is the only one all the tricks can be done with.

The tournament will open at 1 The tournament will open at 1 clock sharp, and all entrants are

afternoon with ceremonies to be conducted by Mrs. H. G. Hastings, chairman of the committee in charge. Mrs. Hastings will be introduced by Mrs. A. McD. Wilson, life president of the Uncle Remus Memorial Association.

The four stones will be presented as follows: To the memory of Frank L. Stanton, by the Atlanta Writers' Club, to the memory of Henry W. Grady, by the Nineteenth Century History Class; to the memory of Robert Loveman, by the Dalton Woman's Club, and to the memory of Sidney Lanier, by the Lanier Society of Macon. Four additional stones will be dedicated in the near future to James B. Nevin and three other writers.

Delegates from the four clubs will be honored at noon Tuesday by the executive board of the Uncle Remus Memorial Association with a lunched a guest.

> "In Cuba each maid wakes up with this serenade, 'Peanuts! They're nice and hot-Peanuts! I sell a lot If you haven't got bananas, don't get blue, Peanuts in a little bag are calling you'. -The Peanut Vendor

The peanut man has 'em all stepping, and why not? Says he, "If you want a moral to my song—Fifty million little monkeys can't be wrong. Because Georgia grows more peanuts than any other state, it seems fitting I should devote my columns this week to this very popular Georgia specialty.

The history of peanuts dated back so far that we hardly know just how long they have been used for food. However, peanuts are believed to be one of the many native plants of South America. In excavating, scientists found peanuts in the ancient mummy graves in Peru. According to tradition peanuts were introduced into Africa and Europe by early traders and from there they were brought to Virginia during the colonial slave trade. They were cultivated in the region around Jamestown Island and Suffolk for many years before the Civil War. The popularity of pea-

nuts among the many soldiers who were in the region during the Civil War is probably largely responsible for the rapid spread of peanut culture in this country after 1865. They are known in the south as "goobers," "pinders" and "groundpeas." In China they are still called "groundnuts." Demand for peanuts during the '80s increased even faster than the domestic production and for 10 years enormous quantities were imported from Europe and Africa and on the south as the country and the south as the country after 1865. They are still called "groundnuts." Demand for peanuts during the '80s increased even faster than the domestic production and for 10 years enormous quantities were imported from Europe and Africa and on the south as the south

years enormous quantities were imported from Europe and Africa and later from Japan and China.

For many years Virginia led in the production of peanuts in the United States. Now Georgia produces more than any other state.

Peanut oil was much in demand during the World War period. Since then ing the World War period. Since then peanuts have been grown principally for salting, for the manufacture of peanut butter and candy, and to be sold raw, but who knows what the future holds for this delicious nut?

"Tomorrow," says a savant, "the question will not be whether we shall were rayed or cetton gargents.

wear rayon or cotton garments, but whether we shall make our clothes from peanut shells, spruce trees, cot-ton linters or cornstalks. Peanut shells from only a few plants could yield suf-cicient fabric to completely clothe thousands of men, women and children the year around." the year around.

the year around."

The public is realizing more and more the value of peanuts as a food. Physicians, clinics and dietitians are now prescribing the eating of raw peanuts as a health builder. The peanut is rich in phosphorus and calcium, which are necessary elements to the diet. The peanut offers the system magnesium and sodium which are necessary to give firmness to the bone structure of the body and prevent softening of the tissues. Magnesium aids also in building brain, muscle and grated rind of one lemon, 1-2 teaspoon lemon juice and grated rind of one lemon, 1-2 teaspoon pepper and dash papriks; 2 tables spoons butter: 1 cup stock, 1 egg.

high—giving them a very high caloric value.

Infantile paralysis is an affliction of the muscular part of the body. The use of peanuts with its rich healthful muscle, bone and body building properties tends to ward off the various diseases the body is prone to, especially that of growing children.

Always include peanut butter in the foods that you keep on hand; it keeps well and can be used on many occasions. An old Georgia favorite is peanut butter mixed with syrup to be served with waffles or hot cakes. For sandwiches it may be used plain, thinned with, marshmallow cram, jam or white corn syrup, or combined am or white corn syrup, or combined with any other sandwich filling.

Have you ever tried any of these nore festive peanut sandwiches?

Add chopped stuffed olives and enough salad dressing to peanut butter to give it a good consistency. Save out a few olives and cut them crosswise. Shape your sandwiches and spread with the mixture. With a thimble cut

THIS remarkable offer is made solely to induce you to try BISQUICK—the remarkable new milling discovery that prepares biscuits in 90 seconds. It's an offer that will appeal particularly to women who believe in modern things . . . to women who believe it is smart to be thrifty. For, Betty Crocker's 'Bisquick Baker' not only represents a vast improvement over the ordinary biscuit sheet, but represents a value of 35 cents in cash saved.

Designed by Betty Crocker, the noted Gold Medal cooking authority, made of 125 lb. metal—an extra weight of 30 lbs.—it possesses many unique features. It's extra large—16"x11". And it's guaranteed to bake better biscuits-with a lighter, tender center and a beautiful golden-brown crust. Accept this offer. You'll not only find Betty Crocker's "Bisquick Baker" a valuable addition to your kitchen, but you'll be more than delighted with BISQUICK.

A Remarkable Milling Discovery

If you want a far quicker, far simpler way of making biscuits-the kind of biscuits you've always dreamed of making—then you are urged to try BISQUICK.
The discovery of the millers of famous Gold Medal 'Kitchen-tested' Flour, it is utterly different from anything ever before known. A secret formula, there is nothing else like it. BISQUICK is an entirely new method of making biscuits.

Requiring nothing except the liquid, it cuts the time of preparing biscuits to 90 seconds-almost nothing!

EXTRA LARGE 16" x 101/2" **EXTRA HEAVY** Made of 125 lb. metalordinary biscuit sheets. **GUARANTEED**

to Bake Better Biscuits

Made by the famous "Kitchen-tested" process, it banishes all chance of failure.

Results are amazing-biscuits so white, so fluffy, so tasty, you'll say they were made in fairyland. Goldbrown topped creations that melt in your mouth. And-men go wild about. By all means try BISQUICK. You'll be glad you did.

All You Do Is Add Liquid

With BISQUICK, all you do is add milk or water. And-nothing else! BISQUICK contains everything except the liquid. Every ingredient is the finest quality that money can buy.

BISQUICK PREPARES BISCUITS IN 90 SECONDS

There's nothing to sift, nothing to cut-in or rub. No muss! No fuss! And-no guessing.

You get perfect results every time. For, in BIS-QUICK, the flour and shortening are blended together (the secret of good biscuits) far more perfectly than is possible by human hands. And it's "Kitchen-tested"—by actually baking samples in a home oven like your own-for absolute uniformity of results before it goes to you.

Based on a famous old southern recipe which was greatly improved under the direction of Betty Crocker, the noted Gold Medal expert, it makes every biscuit an exquisite adventure in deliciousness. For an altogether thrilling experience, try BIS-QUICK. Get at any grocery store. The large box enough for 80 man-sized biscuits-costs little. You'll be delighted with results. Disposal Plant Is Great Nuisance, Property Owners Inform Mayor.

Asserting that the Peachtree creek disposal plant is hopelessly inadequate to meet the demands made upon it and that thousands of gallons of raw sewage is emptied daily into the creek without treatment, thus creating an without treatment, thus creating an unbearable and intolerable nuisance, Randolph & Woodruff, attorneys representing 16 property owners in the wichity Thursday served notice on Mayor James L. Key that the nuisance must be abated.

Unless remedial steps are taken at Lemass, minister of industry and com-

derson, K. J. Howe, H. G. Jacobs, Robert B. Strickland and Spotswood D. Grant.

A letter which Randolph filed with the mayor said in part:

"It is not our clients' desire to harass or-embarrass you or your administration, and they have deliberated at length as to the proper procedure to take. But, after due consideration of the gravity and seriousness of the situation, they have concluded to resort to legal action. Accordingly, notice is hereby given to the city of Atlanta that unless it acts to remove and abate the nuisance above described, our clients will take action to enjoin the city from maintaining the same."

"Their health and property are being endangered and damaged by the dumping of raw sewage in to the creek from these two sources.

"The last grand jury of our county, in special presentment, called attention to the serious pollution of Peachtree creek and the unspeakable nuisance, together with the menace to the public health created thereby, especially setting forth that as long as this intolerable situation existed serious epidemics are being averted only through good fortune.

"The grand jury further suggests that the present unemployment situation could be remedied somewhat if immediate steps were taken to complete the program, and recommended that work be started and carried on as funds are available.

"Moreover, due to the times, if this work were started in mediately and carried through to completion, the cost to the city would be much lower than at any time within many years past and result in a substantial saving to the city."

When fluorine is passed through this solution, it combines and there is no explosion. In other words, it "stays put" at least long enough for the chemist to see what is happening. The carbon tetrachloride is distilled off, and still the product remains stable and does not explode. One fairly definite product which has been obtained is a combination of fluorine and napthalene, a substance common in moth balls.

GEORGIA BANKERS LEAD U. S. EFFORT TO AID FARMERS

timate aim of attaining agricultural perfection, Georgia leaders have already launched an agricultural campaign for the ensuing year which, it is believed, will go far toward reaching the ensuing seal.

paign for the ensuing year which, it is believed, will go far toward reaching the coveted goal.

The live-at-home program, advocated during the past three years by the Georgia Bankers' Association, State College of Agriculture and other cooperating forces, was the first step in the state's progressive agricultural program. In a 12-week survey, sponsored last fall by the agricultural committee of the state bankers' association, it was found that there are farmers in every section of the state who are living at home, diversifying and enjoying prosperity.

A later survey made by the extension department of the State College of Agriculture revealed the argent need for home markets for Georgia's surplus farm products. In this it was pointed out that \$56,000,000 was sent out of the state in 1931 for food and feed stuffs. Retailers in Georgia expressed their desire to use homegrown products, but their failure to do so is traceable to the inability of the farmer to place his staple articles on the market in standard packages, properly cleaned, sized and graded.

As a result of this survey, the state hankers' association has undettaken. As a result of this survey, the state bankers' association has undertaken, as its new objective for the year, a campaign to encourage the establish

ing of farm product depots at points of concentration throughout the state, At the annual convention of the Georgia Bankers' Association in Augusta on April 12-13, the agricultural gusta on April 12-13, the agricultural committee is counting upon enlisting statewide co-operation of bankers in this new enterprise of encouraging local farm depots for conditioning Georgia products. This plan will expand the profitable marketing of surplus commodities that now go to waste or have to be sold far below their true value for want of inexpensive processing. The proper banker interest in establishing such depots will make directed credit more effective, will assist in making farm operation profitable, will speed up the back-to-the-farm movement, will create numerous money-making plants at points of farm-product concentration, will contribute to the welfare of business as well as farming, will relieve ness as well as farming, will relieve unemployment in Georgia towns and cities, and will inject new hope and spirit from top to bottom of the large percentage of Georgians who directly or indirectly look to the soil for their media. their well-being

15,000 MORE MEN Preference for Saving Girls Cited in Clergyman's Trial

BY HERBERT MOORE.

LONDON, March 31.—(UP)—Miss Sylvia Harris, 22-year-old, pretty and blonde, raised her voice to a high, tremulous pitch in consistory court at church house today when she declared she had been "warned" against the Rev. Harold Francis Davidson, on trial for immoral conduct while "rescuing" girls from a life of vice in London.

Despite the warning, Sylvia told the court that Dr. Davidson had pestered in the court that Dr. Davidson had pestered in the rector's caress Sylvia, told in detail of the rector's attempts to caress Sylvia, who remarked that "it was enough to get me the sack." She is a domestic servant.

Earlier in the day, Barbara had completed her testimony by saying that she usually called the rector "uncle" and that he had "many other nices." She also introduced a letter which she said she wrote to the Bishop of Norwich, February 9, complaining about the rector's conduct.

Louisiana Town Succeeds in Novel Project To Help Self and Nation.

WASHINGTON, March 31.—(AP)— The story of Lake Charles, Louisiana port that spent \$4.412,965 of its own money and won prosperity in years of depression was told today before the house rivers and harbors com-mittee.

or depression was told today before the house rivers and harbors committee.

Representative De Rouen, democrat, Louisiana, jubilantly reported that Lake Charles had in the past three years developed a tonnage of 1.032,796, surpassing New London, Conn.; Wilmington, Del.; Coos Bay, Ore., and San Diego, Cal., by doing its own harbor development.

Now, he told the committee, St. Charles is ready to turn its harbor over to the federal government, to become part of the national system, by federal assumption of the \$30,000 annual maintenance cost.

This course was enthusiastically recommended by the war department, which in 1922 granted permit to Lake Charles to make its unusual local enterprise experiment.

On Exhibition "500,000 MILE" AXLE

This axle really deserves an exhibition by itself. It is another new Nash developmentthe silent, underslung, worm gear rear drive axle.

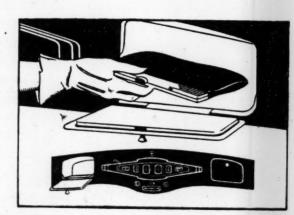

Records of 500,000 mileages for a worm axle are common. It is one of the longest-lived and most trouble-free units known to motor car engineering.

"Mechanical" features may mean nothing to you but "money" does - and how good your motor car investment is depends a lot upon how good the rear axle-the "poweraxle"-is.

Another advantage of this new Nash silent, underslung, worm drive axle is that it enables Nash to lower the over-all height of the car nearly 3 inches without reducing headroom or road clearance in the slightest.

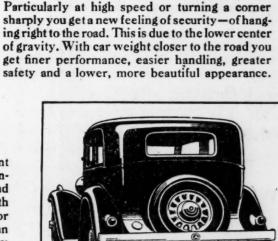

All Nash Twin Ignition Eights have this "500,000 mile" axle.

Prices range from \$1270 to \$2055 f.o.b. factory with wheelbases from 128 inches to 142 inches.

New Beavertail Back

This unusually beautiful new Beavertail back created by Nash not only gives pleasing distinction to the rear end but is aerodynamically designed to free the car from the "hold back" caused by rearend vacuum and thereby to save powerwaste at high speed. (All models.)

Uncle Remus Memorial Association Miss Mary Craft To Honor Georgians at Wren's Nest

Uncle Remus Memorial Association is taking the lead in honoring great Georgians, upon approaching the two hundredth anniversary of the state, no more distinguished names than Joel Chandler Harris, Henry W. Grady, Sidney Lanier and Robert Loveman, the poet, will be found in the galaxy of names that have played a part in the progress of Georgia, and will be honored at the opening of the author's walk. This ceremony will take place Tuesday, April 5, at the Wren's Nest and will be the first group to be honored.

The control of the state, no marble stepping-stone.

Frank L. Stanton will be honored by the Writers' Club of Atlanta, of which Dr. Andreson Scruggs is president.

Sidney Lanier is honored by the Sidney Lanier Memorial Association of Macon, with Mrs. Walter Lamar, president.

Dalton Woman's Club will honor Robert Loveman, and Mrs. M. E. Judd is the president.

The association, with Mrs. A. McD. Wilson, president, has found many ways to honor Mr. Harris' memory, and believe this project would have pleased Mr. Harris perhaps more than anything else by honoring his friends and co-workers in a literary world.

Henry W. Grady will be sponsored by the Ninteenth History class, of

DEAR MISS CHATFIELD

DEAR MISS CHATFIELD:

Several years ago ill-health overtook my father and he had to call on my brother to help with the 'support of the family, which includes me. Brother buys my clothes, and pays for the incidental expenses of my schooling which isn't much, for I go to public school. Because he contributes to my support he feels that it gives him the privilege of saying what I can do, where I can go, and what I can wear. I am getting sick of it. I tell him so, too, every chance I get. Father always sides with Brother and says if it were not for him I would be in a bad way. I am thinking of leaving home, giving up school, and going to work. But I don't know how to begin. There is no fun in life for me here and things get worse instead of better.

WOMEN'S CHATFIELD:

Will read a group of plays, among them being a one-act play.

WOMEN'S get worse instead of better. ELLEN, W. F.

ANSWER:

Throttle that temper and try different tactics with your brother. If you were to sit down and in a calm and considerate fashion discuss your affairs with him he would, no doubt, he altogether reasonable. It is a well-known fact that you can often weaken another person's resolve to give you orders by seeming to accept them graciously and by seeming to concur with him in the expressed opin.ons. The very fact that you are antagonistic and ready to fight over every issue will strengthen the brother's resolve to bend your will to his. After all, he is doing a fine part by you. Your father agrees that he is, and you must acknowledge that any brother who steps in to educate and clothe his sister is motivated by the best impulses. He is fitting you to be self-supporting and independent and for thanks you are giving him all the trouble you can.

If he did no more than make it possible for you to continue in school, he would be doing you a great kindness. For the education that you are considering abandoning is the one thing you can't afford to lose. Whether you make your living in a school, a store, an office, a factory, or in a hospital, you are more efficient by reason of your education. And it is rapidly coming to pass that you can't get a first rate job anywhere without a high school course. I get dozens of letters from girls who want to enter some hospital for nurses' training yet are balked by lack of high school diplomas. An institution that deals with unemployed girls says that the well-educated ones are in demand whenever a vacancy occurs in an office or place of business. Yet in spite of this you are playing with the thought of leaving home and giving up your school work because your brother undertakes to restrain you.

Just for the sake of good sportsmanship and the tun you will get out of it, try a new policy with your brother. Display a little gratitude to him for his generosity, show a little respect for his opinions, let him feel that you want to co-operate with him in his ambitions for you, and that you are willing to defer to his preferences as to how, and where, you shall spend your time. This will afford you some amusement and will act as an antidote to the poison of the hatred that has come into your heart, the hatred that you are venting on him and all the other people you come in contact with. For you can't let hate in your heart without spilling it on everybody that you touch. When you are not actually forcing it out, it drips out. This mental state will not only spoil your life now but it will give a dark coler to your mind that will last forever. mind that will last forever.

Add a business course to your present list of subjects and that will enable you to become independent sooner than if you limited yourself to the academic studies only. The sooner you relieve your brother of his responsibility to support you, the better off both of you will be.

The distinguished Georgia poet, Mrs.
Roselle Mercier Montgomery, is at work on her fourth book of poems. She is weaving the conception of her English translation from the Latin of the Odes of Horace into poems of her own creation. This poetical feat is regarded by literary-minded America and the critics as the most important work of her career. Twelve years ago Mrs. John Seymour Montrogenery for such she is in private life, selle Mercier Montgomery, is a poryears ago Mrs. John Seymour Mont-gomery, for such she is in private life, nwakened to the fact that it was unfashionable to have been born be-fore 1816, because it made her a mid-dle-aged woman. After leading fore 1896, because it made her a middle-aged woman. After leading a
purely social-and domestic life for 20
years she began to write poetry,
and since that era her poems have
been published in the leading magazines and newspapers in the country.

Visits Here.

Her visit here this week with her
girlhood friend, Mrs. Robert Argo,

Gowned in white chiffon flowered with a graceful design of pink roses, Mrs. Montgomery chatted interestingly over a cup of tea Wednesday in Mrs. Argo's apartment, surrounded by Miss Agnes Kendrick Gray, Dr. Anderson Seruggs and Daniel Whitehead Hicky, a threesome of famous Atlanta poets who paid homage to this charming and entertaining woman. lants poets who paid homage to this charming and entertaining woman. The only set rule followed by Mrs. Montgomery is that she never commits herself to deliver a requested poem at a certain time. She feels that a promise of this nature injures her style, and that the emotion she desires to express through her poems is not forthcoming if she rushes to finish it at a set time. The tragic meaning of the World War bore so heavily upon Mrs. Montgomery that it was during this period that she discovered she could compose poetry. During sleepless nights the terrible conflict flitted through her mind, and her poems answered as her emotional outlet.

Former Golf Champ's Death Caused By Nostrum Containing Radium

NEW YORK, March 31.—(P)—A patent medicine containing radium, taken two years ago to cure an ailing arm which kept him from playing golf, today caused the death of Eben M. Byers, Pittsburgh steel man and in 1906 national amateur golf champion.

According to members of his family, Byers started taking the medicine two years ago. As he continued its use he showed signs of radium poisoning and a year ago faced the prospect of lingering death.

He placed himself under the charge of Dr. Joseph Wheelwright, of New York, who called in Dr. Frederick Flynn, of Columbia University, a specialist on use and effects of radium, and other experts but to no avail.

Mr. Byers became gradually worse, and a month ago was removed to Dortors' hospital, where he died. Pneumonia contracted in the last few days

mercly speeded an inevitable death, according to Dr. Flynn. The medicine, which was sold, commercially two years ago, since has been withdrawn from the market, Dr. Flynn said.

Mr. Byers was chairman of the board of the A. M. Byers Company, makers of steel and iron pipe, and 51 years of age. He maintained homes in Pittsburgh, Southampton, N. Y., and Aiken, S. C.

He was among the leading amateur golfers in the century, being runner-up in the national amateur in 1902 and 1953 and defeating G. S. Lyon. of Canada, for the American title in 1906.

He is survived by his brother, J. Frederic, a vice president of A. M. Byers Company, and a sister. Mrs. J. Dennison Lyon. of New York City.

Funeral services will be held Saturday at 3 p. m. from the brother's home in Sewickley Heights, Pa., with burial in Pittsburgh.

Rain Halts Contest in Fifth Inning; Birds Hit Well.

By Jack Troy.

Staff Correspondent.

TIFTON, Ga., March 3:.—"His umps" wore a raincoat today as the Oglethorpe Petrels turned on the Rams of Georgia State College for Men and avenged Wednesday's defeat by winning, 9 to 3, in an abbreviated five-inning game that was cent short by a downpour of rain. It was the final of the two-game exhibition series.

Early Friday morning Coach Frank Anderson and his boys will head for Gainesville, Fla., where the Univer-sity of Florida is to be met in the afternoon in the opening game game of the Dixie College league. Either Charley Mitchell, veteran right-hand-er, or Lefty Dixon, brilliant south-

its purpose, for nature found a way
down the collar.

Despite the terrible conditions under which it was played, however, the
game was not bad. Oglethorpe made
only two errors and the Rams three.
That was excellent, everything considered.

The invading Petrels proved better The invading Fetreis proved better wet weather players than their opponent today, at least. They blasted Pitcher Singleton out of the mud hole that was the pitcher's box at the beginning of the third stanza and continued their heavy clouting against Divine, who was sent in to relieve Singleton.

The outstanding feature of the game, perhaps was Sam Baker's theft of three bases in the opening inning. Baker walked to first and think as the same as

TRIES BOXING.

Larry Johnson, all-round University of North Car "na athlete, has decided to try boxing as a profession.

Nowhere did news of the pasisng of Joe Rhodes, Atlanta capitalist, cause more sorrow than in the various sports offices of the Atlanta newspapers. Especially will the football reporters miss him. He was always with the Georgia Tech team. The football reporters always went to his drawing room for conversation about the game that lasted until late hours. Georgia Tech and football were his hobbies. He was loyal and true. And next fall, when with a tie score of 4-4. the reporters gather at the practices and in the Pullmans on football trips, there will always be someone missing, someone who seemed to be a part of the scene that was always to go on. It was a striking co-incidence that on the day which marked the first anniversary of Knute Rockne's passing that Joe Rhodes should have passed on, too.

He must have heard them talking about the dog show. Or maybe he saw them getting out the American Kennel Club papers for the entry blanks.

Anyhow, he never liked shows. Took no pride at all in the silver cup a couple of years ago when he was just a Schnauzer pup in his first competition. Went to sleep on a beautiful young lady's knee when they photographed him. And subsepup in his first competition. Went to sleep on a beautiful young lady's knee when they photographed him. And subsequent ribbons meant nothing.

At his first show he and the other Schnauzers were quartered next to the wire-haired terriers. And they made such a terrible lot of noise that the Schnauzers, who were out-numbered, got sort of sore about it.

Anyhow, the first day there was some work on the entry blanks he went out in the court and sat around in a sort of disconsolate attitude. He was sitting there when Morvich came along. Morvich is a big Airedale. No one knows how he got along. Morvich is a big Airedale. No one knows how he got his name. He may have been named after the Kentucky Derby winner in 1922. The young lady who owns him isn't sure. He was named that when she got him. was named that when she got him.

He sat there looking at Morvich. And all of a sudden he made up his mind and went for him. He was giving away about 15 pounds and about four or five inches in reach. But he made it a good scrap.

That first rush out of his corner sort of upset Morvich. But after that Morvich began to come back strong. He played steadily for the head, pounding the Schnauzer badly about the ears

It went five rounds with Morvich taking the last rour. Some volunteer referees, including a screaming young lady with an umbrella, stopped the fight.

This Schnauzer seemed to feel all right about it. His ears were pretty badly cut up. They were bloody and had two or three punctures. The edges were slightly picoted. But he tast.

Two days later a big collie came by, obeying all the traffic laws and minding his own business. I'm not sure what this

Charley George, hard-hitting left fielder; Parker Bryant and Frank Anderson led the stick work, getting two hits apiece. One of Anderson's blows was a double. George got three hits Wednesday, bringing his total for the series to five. It was very uneven from the start. This collie was a scrapper with a quick jab which ripped every time it

He pounded the head and ears for a while and then shifted Donahue, who played a splendid game Wednesday, and Threatte, each got two hits for the Rams. Nix hit a long triple. Coach Orion Mitchell presented a well-coached team in the Stribling training camp, "After two rounds I had him all covered with blood—my blood." The Schnauzer was bleeding all ered with blood-my blood." The Schnauzer was bleeding all

Several of his players were given more than a once-over by Buzz Wetzel, Cleveland scout, here for the series. Wetzel has gone on to Florida for the opening of the Dixie league. There was a glint in his eyes. "I dare you," he was saying. "I just double-dog dare you to put me down in front of a judge right now. A fat chance you'd have to get any ribbons on me."

The decision to call off the game was left up to Coach Mitchell and he showed wonderful sportsmanship.

His team was behind and the game with the middle west, is to offer the greatest field in years. And the middle west, is to offer the greatest field in years. And

His team was behind and the game possibly could have been played out, but he thought of the players, especially the pitchers, and gave the signal at the end of the fifth. Wednesday night the Oglethorpe squad was entertained at a dance at the home of Mr. and Mrs. C. A. Kent. Tonight they are invited to another dance at the college.

There is not to be any dancing for long, however, for a long ride and a league-opening game face the Petrels on the morrow.

Three State boys, who traveled all the way from East Lansing in a bus, stepped out and got two runs in the first inning, but Tech tied it up in her half when Johnny Ferguson and Jimmy Spradling singled, advanced a base apiece on a steal and scored when Bill Hogsett worked the squeeze play perfectly.

Michigan got two runs in the fifth on Hogsett's wild throw—something very rare for that young man—but the Jackets tied it up again in the fifth when Spradling hit a home run after Ferguson had singled.

SOPHOMORES SHINE.

The work of these two sopho Ferguson and Spradling, in the Tech outfield was of a highly pleasing or-der. Ferguson made a beautiful per home from left in the ninth to kill off a score. Parris, at short, and Hogsett, at third, made pretty fielding plays.

In fact Bobby Dodd's team indi-cated that it was certain to be far from weak this year despite wholesale Coach Dodd started Mitchum, vet-

BLACKI	ER THE FISH-BETTER THE DAY FOR F	ISHING

On the above Fisherman's Calendar the best days for fishing are indicated by a solid black fish, days not so good by a partially black fish, and poor days for fishing by a white fish. This calendar is scientifically compiled, using the moon, the signs, and every known factor that has a bearing on fishing as used by the "Old Timer," as well as the modern Sportsman. Use discretion in selecting your fishing days—do not go when it is stormy, windy, tidesagainst you, or the waters muddy—but select clear calm days when the fish shows solid black and you will find this calendar to be surprisingly accurate for both inland and deep sea fishing, and for any waters in or surrounding the United States and Canada.

Gabby Street Brings Galaxy of Stars to Ball Park.

By Jimmy Jones.

A very soggy baseball diamond pro-hibited anything resembling a ball game yesterday between the Crackers and the Phillies, and the latter hit the trail northward after cancellation of the final scheduled game here. Today there will be new faces and famous faces at Ponce de Leon park.

Gabby Street, the former battery mate of Walter Johnson, who stepped out of the bushes to lead the St. Louis Cardinals to two consecutive National League pennants and one World Series victory over the Athletics, is here with his world champions.

The Cardinals were due in at 7:15 this morning from Bradenton, Fla., where they broke camp yesterday. They are scheduled to meet the Crack-

Coach W. A. Alexander, of Georgia Tech, came to the rescue when officers refused to let the players proceed and himself paid the assessment. Coach Alexander protested the affront to the guests of the university, as did a number of Michigan State alumni. The state's motor carrier act, however, was deemed to apply to the college students. They left with a very critical impression of Georgia and Atlanta hospitality.

ROOKIES LAND SCORE OF JOBS IN BIG LEAGUES

Yankees and Cubs Own Most Promising Younger Players.

NEW YORK, March 31.—(P)—
The ranks of the baseball rookies, although already rapidly dwindling as the big league teams start homeward, apparently have produced at least a score of players who will make the regular pay roll for the first time.

For every one who seems to have negotiated the sharp grade, however, at least a half dozen failed.

Grain Letters. FENNER, BEANE & UNGERLEIDER. CHICAGO, March 31.—After maintaining a fine tone during the early part of the day, especially on new crop deliveries, weakness developed in late trading in sympathy with weakness in stocks and lack of outside interest to absorb rofit-taking sales. Liveryool cables were relatively firm, although sterling recovered a large part of yesterday's loss and Buenos Aires at midday showed a net advance following a weak close yesterday. There was no important rainfall over winter wheat territory and, although forecast was for the part cloudy and unsettled no rain was predicted. NEW YORK, March 31.—Over to counter market:

Congressional wrangling over the tax Penn Exchange ne program and the uppromising action of the Penn Exchange ne stock market have combined to throw Wall Fork Natl Street into a somewhat lower state of spirits, but there are not a few brokers who believe, wishfully more than logically perhaps, that before the market is compelled to stand much more of a test, some "good news" will develop to stimulate recovery.

NEW YORK, March 31 .- (P)-United States government loans today gave another exhibition of strength

were dropping into new low territory for the year, both the Liberties and treasuries resisted intermittent profit-taking waves and the majority recorded net gains for the session. The tax-exempt Liberty 3 1-2s again registered a new 1932 high before reacting fractionally.

Until the latter part of the day's proceedings, the bond market maintained a fairly steady undertone. Then heavy selling came into the Missouri Pacific liens with a resultant unset-

lement of practically all classes of domestic mortgages.

Announcement from Washington that the Reconstruction Finance Cor-poration had finally authorized Lans poration had finally authorized rans to the Missouri Pacific assured the meeting of April 1 maturities, but practically all of the "mop" issues closed from around 3 to nearly 8 points down.

Several of rail liens showed losses form 1 to more than 4 points and

of from 1 to more than 4 points and violated their previous year's record

COMMITTEE DIVIDED ON VACILLATION BILL

Council Monday will decide whether an ordinance protecting employes from the vacillations of politics shall be enacted when it considers a divided report of the ordinance committee, as the aftermath of a meeting of the committee Thursday.

The measure provides that various department heads shall have authority to oust an employe, but that the employe has three weeks in which to file an exception and have his case reviewed by the committee in charge of the department. It also provides that in the event a department head is defeated in an election, the new head shall not have the right to remove any employe from office within six months after he assumes his office.

months after he assumes his office.

Two members of the ordinance committee, Alderman Alvin L. Richards and Councilman John Owen, approved the measure, while Councilman J. W. Wesver signed an adverse report. the after he assumes his office.

NEW YORK, March 31 .- (AP)-Selling of the utilities, especially Electric Bond & Share stocks, gave the curb market a heavy appearance to-day, although changes in other groups were generally of small proportions.

Electric Bond & Share, new, broke more than 4 points in a large turn-over. The same company's preferred issues showed even more substantial declines. The old common stock has been removed from trading. Consolidated Gas of Baltimore, whose earnings for the first two months showed only a moderate de-cline from a year ago, was a firm snot.

Gulf Oil encountered profit-taking after its recent advance, yielding 17-8 net. Oils as a group were dull and fairly steady.

Aluminum of America found the support thin, reacting nearly 5 points. Stutz improved.

Transactions approximated 240,000 hares, considerably above recent

Highlights of Wall Street

BY CHARLES W. STORM, Editor, the News Service of Wall Street.

NEW YORK, March 31.—The chief factor behind the sharp break in the stock market today was the adoption by the house of the tax of one-quarter of one per cent on the market value of the latest that the critical part of the control o stock sales. This tax strikes hard at the brokerage business and a most un-favorable construction was placed on it in the financial district.

An hour before the house adopted

An hour before the house adopted the tax on stock sales, professional bear traders circulated rumors that if this measure were passed the market would break 10 points. These predictions were exaggerated but they put the Street in an apprehensive frame of mind, causing some liquidation and additional short selling.

GOING AFTER SENATORS.

The passage of the stock sale tax really aroused the financial district and after the close many brokers were advising clients to send telegrams and letters to their respective senators in an effort to kill the stock sale tax in the senate. Brokers interested in the grain market also were asking customers to send requests to their senators that the tax on sales of produce be defeated.

duce be defeated.

Although the stock tax bill seems unfair, there is no doubt that it will curtail speculative trading to a substantial degree and will make more difficult profitable speculation on day to day dealings. The bond market continued to show pronounced heaviness with the excep-

pronounced heaviness with the exception of United States government issues which were firm.

Missouri Pacific bonds were weak because of some apprehension as to whether the interest due on the Series H 5 per cent bonds would be paid tomorrow. Most of the offerings of these bonds, however, was due to selling by an insurance company in Missouri for which receivers were asked.

which receivers were asked.

NEW LOW GROUND.

The break today carried the average price of 100 representative stocks down into new low ground for the bear market. Since the start of this year the market has sold at the low prices of January 5 three different times. Breaking the low levels is considered unfavorable from the specular sidered unfavorable from the specula-tive viewpoint. (Copyright, 1932, by the North American Newspaper Alliance, Inc.)

CAPITOL THEATER

When Miranda, the Spaniard, regained consciousness after being felled by the cudgel blow of the witch doctor's daughter, his campfire was dead and dawn had almost come. He felt weak and dizzy, and his head ached. Putting his hand to it he found his thick hair matted with blood and a great wound in his scalp. It made him shudder and turn so sick that he fainted. When again he opened his eyes it was broad daylight, and he AUTOMOTIVE SERVICE.

At last, sitting up, Miranda discovered that his loin cloth had been cut from his body. He gazed dull at his weapons, picked them up in wonderment, sitting long, fingering them in stupid bewilderment. Now he arose, and like a man wandering in a dream, stumbled out into the jungle. A hundred ward, from his shelter he came suddenly in dred yards from his shelter he came suddenly in sight of a lion feeding upon its kill. The beast growled ominously. Befuddled as Miranda was, only for a moment did he remain motionless in

By Edgar Rice Burroughs

With a panther-like spring he gained the low swinging limb of the nearest tree. Some hours after, the lion vanished and Miranda dropped silently from his place of safety and disappeared amidst the riotous foliage along the elephant trail. His diamonds were gone, but he would not have known a diamond had he seen one. Uhha had left him, but he did not miss her. The girl had de-feated her own purpose, for Uhha's blow had shattered the Spaniard's reason. His brain was but a storehouse of useless memories.

BULLDOGS PLAY **MADISON TODAY**

ATHENS. Ga., March 31.—Georgia's baseball Bulldogs will open their home season Friday afternoon when they play Madison A. & M. at Sanford field.

The Bulldogs defeated Ciemson College in two games and split a twogame series with South Carolina when they toured South Carolina last week.

They will open their Dixie College league series against Auburn in Auburn Friday, April 8.

DETROIT, March 31.—(P)—Jack Dempsey ended his comeback training ampaign here tonight by outpointing Babe Hunt, Ponca City, Okla., heavy-weight, in a four-round exhibition bout. Dempsey weighed 192 1-4; Hunt 193 1-4.

Although no official decision was given. Jack clearly had a comfortable margin at the end. He had some difficulty in getting inside Hunt's long league series against Auburn in Auburn first round, however.

Jack solved this problem in the second round, at the same time improving his timing. Shortly after the round was under way, Dempsey took

WHAT HAS GONE BEFORE: When Judy Allison had been in Chicago for six months without finding work her father wired her to return to her small-town home. Downcast by her failure, she went to the tea room in her rooming house. Dick Mason, chief radio announcer at WAOA, sat at her table. Impulsively Judy showed Dick her father's telegram. Following Dick's insistence, she reported for a radio tryout the following morning. From all the applicants, she was chosen for the "Beauty Builders" "program. While Judy was talking with Elton Day, writer of script for her pagrams. Lona Burdette came up and asked why he had thrown her down "for some new kid from the country." Day tells Judy Lona is a trouble-maker. While Judy was rehearing with Elton, he received a telephone call which greatly disturbed him. Dick Mason with Elton, he received a telephone call which greatly disturbed him. Dick Mason they danced, and again. And then the music stopped. That was all Cindewrella had to go home.

So the evening ended. Evenings end too soon when there is music, when a man with a deep voice and deep eyes and a boy's smile is forgetting everyone lobby she'd ever seen, seeing people, people with the stamp of travel and knowledge on them, she felt somehow possessive, as though she, Judy Allison, had some definite share in all this.
